The Royal Rooms, near C.P.R. station, main street, Vulcan, Rates 75c. and \$1.

We have some good houses splendidly located for sale. Flood, Whitcher & Elves.

Mrs. Fred Bennett, west of town, spent last week in Calgary, the guest of relatives and other friends.

Mr. and Mrs. George Pearce, west of Vulcan, have gone on a pleasure trip to Portland, Oregon, where they intend to spend a few weeks.

Two papers in one—The Family Herald and Weekly Star, Montreal one for the farm, the other for the home, both of superior excellence. One dollar a year covers the subscription, or three years for two dollars.

The sale of the McLaughlin Chevrolet garage business at Vulcan was followed by the purchase by Mr. Burrows of a fine business site in the city of Edmonton, on which there is being constructed for him a new garage of extensive dimensions with all modern equipment. Information received yesterday indicated that the walls were just about up and that many men were making remarkable speed on construction. The transfer of the business at Vulcan takes place on the first of December.

Measured in money, the ceremonies and celebration in connection with the opening of the new community hall at Reid Hill were an immense success, for it is reported that the receipts aggregated between six and seven hundred dollars. This would indicate a generous patronage on the part of the people of a wide territory, all of whom were pleased to join with the residents of Reid Hill in the rejoicing which comes of an enterprise splendidly accomplished. The feast was the best ever set in the neighborhood, and the program and dance provided entertainment to the satisfaction of the throng. Reid Hill now has a community hall that is a monument to the enterprise of the people and that will render a service to their profit and pleasure.

A classified advert. in this paper costs only a few cents and ought to be worth dollars to you.

Painters are pepping up the appearance of Pete McAskile's premises and giving added attractiveness to this place of business.

The next meeting of the Red Cross U.F.A. will be held on November 6th, 1928, at the school house, commencing at eight o'clock. This will be a very important meeting and all members are requested to attend and bring their friends.

There is nobody better known in the Vulcan district than Mr. Dan Richmond. The anniversary of his birthday was one day a week or more ago, and neighbors and other friends framed up a surprise party and went to his home to celebrate with him this event. They feasted and made merry, and conveyed congratulations and best wishes in which all of the many who know the genial gentleman will heartily join.

Vulcan was represented by twenty or more boys at the Boys' Conference, held last week at Nanton. It was a most successful conference, and provided experience and instruction and pleasure for our local men of tomorrow. The boys express the highest appreciation of the treatment and entertainment received in the neighbor town. Vulcan will value the recognition given to its delegation and the honor conferred on one of its number by the election of Clyde Clarke to the office of deputy grand prior.

Hallowe'en in Vulcan this year was different. The destruction was less and real fun much greater. Youth in the make-up suitable to the occasion performed the pranks of former years and added a few stunts. They were kindly treated at many of the homes where calls were made. Those who went too far with their tricks should receive the punishments suggested by the action of a magistrate down east, who sentenced boys for misconduct to stay in the house nights and to attend Sunday school and church with-out a miss for a stated period. Recent events evidently prompted on good stout that was pulled. With that secrecy which is supposed to obtain, some twelve of our citizens staged a Ku Klux Klan parade, visiting several homes and stores in the community, and right in the middle of the show at the picture house marched up one aisle and down the other and went out. It was a great turn-out, with no objectionable circumstances, and there is the suspicion that credit is due to a party of our town-folk who could hardly qualify as men or come within the years of youth. Hallowe'en as an occasion of fun is all right, but as an excuse for depredation it is a mistake. In several towns the service clubs have promoted a general fun night for the community.

An addition is being made by Mr. Roy Clarkson to his residence, opposite the football pitch, and the entire building will now be finished, when it will rank with many of the premises which are contributing to the establishment of Vulcan as a place of splendid homes. Mr. W. Campbell has returned with his men to labor on the completion of his new residence in the same block. Across in the next block south a double garage is being built jointly by Mr. Ed Arney and Dr. Carson, and this is a likely indication that in time other buildings will be erected on these premises, which adjoin the lots in which Mr. Parsons has recently erected a nice residence. Improvement in this territory have been many this season, as they have been all over the town.

The Caduceus is the staff magazine of The Canadian Bank of Commerce. The October number carries a four-page article of particular local interest under the head "Wheat Harvesting and Wheat Marketing in Alberta." The author is Mr. C. H. Millan of the Vulcan branch of the bank, and Vulcan and district is given fine publicity in a splendid description of farming and the machine methods of this great industry, which includes accurate figures as to quantities, speed, costs, and such like. There are eleven illustrations which add interest to the article, and in these prominence is given to local places and people, included in which are Dickenson Bros., Mr. Floyd Atkinson, the elevators and field scenes of variety. This article is another contribution to the publicity which heralds to the world the fame of Vulcan—the city of elevators.

LOCAL NEWS ITEMS

Mr. Rochon is making apartments in the Royal, each with private entrance, and these will be ready for occupation in a few days.

St. Adolph's Church services, Sunday, November 4th. Sunday school 10 a.m., matins 11 a.m. There will be no evening service as Mr. Kemp will be at Carmanagay.

Mr. Martin Peterson has returned to town from the country this week, following the completion of the construction of a fine new residence for Mr. Roy Adams.

Mr. K. R. McLean, R.O., of Anderson & McLean, sight specialist, 208 Eighth Ave. W., Calgary, wishes to announce his semi-monthly visits to the King drug store, Vulcan, on Saturday, November 10th, and Saturday, November 24th.

The young people's monthly service will be held in the United Church on Sunday evening at 7:30. Rev. Mr. Brunton will speak on "The young men who make good." Music will be rendered by the Canadian Girls in Training. Everybody welcome.

Miss Lillian F. Willows, lady superintendent of Vulcan municipal hospital, is expected to arrive this week in Vulcan and at once assume her duties in connection with the new hospital here, which in the beginning will be in preparation for the opening of the hospital.

This is the last intimation through these columns of an event that will surely interest everybody. It is the Red Cross public meeting to be held at the Vulcan theatre next Thursday evening, November 8th, the feature of which will be an address by Mrs. Conquest, a lady of oratorical talent and devoted to the humane operations of this society. The Red Cross is the business of everybody from the Lieut.-Governor to the humblest citizen, and His Honor is doing his part well. You will at least attend the meeting.

The collection of the curling stones in Vulcan, for shipment to Calgary, there to be ground and otherwise to be put in shape for operations, indicates that the local curlers are developing that first-of-the-season interest that is prompted by the passing of the days and the first frosts. Perhaps there is no one who knows just how many pairs of rocks are owned in Vulcan, but there are a great many, and in proportion to number of members there will be few clubs that will have an equal quantity. There will be doings of the club before long.

In the recent purchase of a new combination ambulance and funeral car, Mr. A. W. Kelly has displayed enterprise that is very commendable. This funeral car was built to order on a Buick chassis at Rock Falls, Ill., and is one of the finest of its kind in Canada. It is a complete ambulance with cot and two attendant chairs and in five minutes can be converted into a side way funeral car. It is the very latest model and there are few of its kind to be seen outside of our large cities. We are glad to see the sombre trapping of the old time hearse removed from view and in its place we have a car that can be utilized so comfortably as an ambulance as well as funeral car.

An addition is being made by Mr. Roy Clarkson to his residence, opposite the football pitch, and the entire building will now be finished, when it will rank with many of the premises which are contributing to the establishment of Vulcan as a place of splendid homes. Mr. W. Campbell has returned with his men to labor on the completion of his new residence in the same block. Across in the next block south a double garage is being built jointly by Mr. Ed Arney and Dr. Carson, and this is a likely indication that in time other buildings will be erected on these premises, which adjoin the lots in which Mr. Parsons has recently erected a nice residence. Improvement in this territory have been many this season, as they have been all over the town.

The Caduceus is the staff magazine of The Canadian Bank of Commerce. This article is another contribution to the publicity which heralds to the world the fame of Vulcan—the city of elevators.

LOCAL NEWS ITEMS

Born, at the Rinehart hospital in Vulcan, on October 27th, 1928, to Mr. and Mrs. Olsen, a daughter.

Mr. E. J. Anderson, R. Se., eyesight specialist from Calgary, will be at the hotel in Vulcan, on Thursday, November 8th. Eyes examined.

Mr. and Mrs. J. E. Fraser and family, of Stavely, were recent guests at the home of Mr. and Mrs. James Marshall, in Vulcan. Major Menzies of Calgary, was a week end visitor at the same home.

Mrs. Emma Southworth has moved this week to occupy the residence premises, second south from the Burrows' garage, which she purchased recently. This property has for a long time been owned by Mr. Johnson.

The last number of the Elks' Magazine makes mention of Vulcan in two or three items copied from The Advocate, and the frontispiece is a power harvesting scene, such as were familiar in the Vulcan district the season just ending.

Every surrounding town where there is or is to be a rink—High River, Nanton, Stavely, Claresholm and Granum—has had a hockey meeting. There is in this a suggestion that Vulcan should make some move along this line. If we are not to have a team this season, and one that will rival those of other towns, it would be well to know it now.

It is now proposed in Vulcan that Clarence Pleasants be made an entry in his class in the provincial amateur boxing championship contests, to be held at a near date in Calgary. It's a good idea, and no doubt will be backed by local fans. Clarence is the young lad who has made himself known by his game performances in the boxing shows that have been presented in Vulcan.

There was a meeting last week end of the Vulcan municipal board. Business in connection with the building of the hospital and the home for nurses was generally reviewed, and everything was considered to be satisfactory. Perhaps the chief accomplishment of the session was the purchase of an x-ray equipment. A selection was made that will maintain the high standard set for every department of this institution. The time is approaching when calculations will start in the minds of many as to when the hospital will be ready to do business.

It has been the practice to occasionally present entertainment under the auspices of the school fair. This makes occasion for real pleasure, offers opportunity for the presentation of medals to the winners in the spelling and oratory contests, and should the patronage be generous the proceeds will add to the amount of the prizes won for exhibits at the fair. The date for such an entertainment has been set for Monday, November 12th. There will be a varied program of music and other numbers, and will include a specially selected feature picture, entitled "His Dog." Programs will be issued in due time.

It is a splendid recognition of the establishment of the boxing game in Vulcan, when Patsy Pollock and Angus Snyder win important bouts in the big places in the States, as they have recently, that the city dailies of Alberta conclude their reports of the events by recording also the fact that these men have at times been on the shows presented at Vulcan. In this connection mention can be made of the fact that Mel Cowie, for many years Western Canada champion three times defended his title in Vulcan. This town of Vulcan has certainly developed as a boxing centre and the promoters are all the time receiving requests for engagement, from mitt men everywhere, some of them of real class.

Another great time is in store for the Church of Christ this week. Beginning on Friday evening at 7:30 the young people's conference of the Christian Endeavor will take place. From Friday until Sunday, every afternoon at 2:30 and every evening at 7:30, there will be meetings to which we invite you. We want the public to look in; we are doing a good work and want you to see for yourselves. The furnace is here and will be installed in time to start the meeting off. We hope to keep the body warm from now on with the furnace, and warm the heart with the message. A complete financial statement will be given Sunday evening at the close of the services. If you are interested to know how all these things have been accomplished, just listen in Sunday evening. The program of the young people's conference is full of interest from start to finish. Miss Marion Roice, the all-Canada secretary of young people's work, will be in charge, and this spells success for the meetings. We are anxious that the young people of the town attend. We do not feel it is boasting to say we will do you good.—O. P. Burris, minister.

LOCAL NEWS ITEMS

Keep in mind the Armistice tea and sale of cooking, under auspices of Vulcan Women's Institute, to be held on Saturday, November 10th.

Laidlaw's store at Nanton was again burglarized on Saturday night and two fur coats valued at \$250 were taken as well as \$15 cash.

The Elks' of Okotoks held their opening dance in their magnificent new hall on Friday, October 19, when about 800 people were present.

Posters produced at The Advocate printery announce the Armistice ball, under Canadian Legion auspices, to be held on November 20th. This is an annual event with no established popularity, and is being anticipated by many.

Auctioneer Robb announces the sale of a bunch of choice dairy cows, the property of F. S. Heckle, on Monday, November 12th, at the premises of the owner, one mile west of Brant. See posters and advt. for particulars.

Mrs. J. H. Wright and children, and Mr. H. J. Maher, have returned home to Vulcan after an extended stay in Ontario. During the period in the east Mrs. Wright received treatment for a serious illness, and is now in splendid health a fact that is a satisfaction to many friends.

Vulcan citizens' hands are being specially trained for a concert to be presented in the local theatre on November 15th. The program will include the numbers played by the band in the provincial competition at Calgary last summer. More definite announcement will be made later.

The Nanton News last week reported the visit to Nanton of Messrs. D. H. Gilmuth, M.L.A., and George Gilmuth of Vulcan. The former gave the information that his first test of wheat this season graded number one seed, with 95 per cent germination.

The map of the election service system in the province, printed in a recent issue of The Calgary Herald, gives a place of prominence to Vulcan. The Advocate ventures to add that there is perhaps no other town of its size in the province that utilizes the juice to any greater degree than does this same town of Vulcan.

Hon. O. L. McPherson was a visitor in Vulcan this week, and made a trip to his farm east of town. His conversation was chiefly on the subject of road, and to men of the community he made this subject particularly interesting on this occasion, and a pronouncement by the minister on this topic in the near future would not be a surprise to those with whom he had people.

The meeting held on Monday night in Vulcan, under Theosophical Society auspices, was a decided success. Mrs. Hampton, who is an international lecturer of repute, dealt with her subject, "Incandescent Souls," in a masterful manner, touching on reincarnation and evolution, subjects which are today attracting the attention of the people more than ever. The lecture was well attended and much enjoyed by those present, and no doubt another visit from the lady will be much welcomed.

The Vulcan Co-op. is a business name familiar locally. This firm is of local stockholders, and it is an enterprise, evidence of which is the steady improvement of its premises. But a short time ago the company erected a splendid office of splendid size and appointments, and this is familiar to those who trade in town. Everything under cover is the object of the management, and to this end there has been erected a new stock-house, the painting of which will make it complete. The building is 10 by 8 feet, two stories, and built on a cement foundation. It furnishes additional office space, and it is a free vault filled with safety deposit boxes for the use of patrons. The entire building, which is entirely of substantial construction, is partitioned to give separate storage space for the several lines handled by the company, which include wall paper, window and doors, paints and oils, flour, cement and plaster, plate board, rods and iron and shorts. The upper section is divided and racked to store the finished lumber of dimensions and other building material. Along the front of the building, both inside and out, there is a row of sliding doors, with equipment to facilitate the handling of the many materials both in and out. The warehouse is electrically lighted throughout. It is most complete and splendidly equipped warehouse. Another building added this year to the plant is a shed which shelters the firewood of different kinds stocked by the firm. Upper piles are in rows in the tidy-lyt yard, which now has buildings on both sides, and the object is, as has been stated, to eventually have everything under cover. This business is under the direction of Mr. L. Dawson, and the yard staff joins in the pride of the accomplishments. Vulcan is likewise pleased with the enterprise of one of its business institutions.

OUR COURTS OF LAW

A jurymen who sat on a case at St. Catherine's recently, was so annoyed at the bull-dozing tactics of the prosecuting lawyer that he arose in his place and politely asked the Judge, if the brow-beating lawyer was within his rights in using such unfair tactics with witnesses. He thought, not. The lawyer apologized and the case went on quietly. Hats off to this jurymen who caused the apology. It was at St. Catherine's, also, on the same occasion, that one of the jurymen failed to appear on the scene on schedule time. The same Judge fined him \$100 for holding up the Judicial Works. Now what do you think of that? Makes you mad? I should say so. It would not be hard to name a dozen criminal offences that would not have received such a big fine.

Organized labor in Canada is in line with organized labor in Britain and United States, over the matter of Communism. In all three countries the trade union ranks are closing against extremists. In refusing to seat Jack McDonald elected by the Toronto District Trades Council, although secretary of the communist party of Canada, the Trades and Labor Congress is clearly unwilling to be compromised by "disruptive elements." Orthodox labor men disagree with the philosophy of the communist element, and realize that their organization will be weakened by the disruptive tactics of Moscow "comrades."

Premier Gardiner says: "I take the position that we should have a main highway leading through Canada. It would be a good thing for the whole of Canada to have one highway through all Canada, which would serve the people of the whole Dominion and those who wish to see Canada. This route should be made the shortest and most serviceable for the Dominion."

For a few days now the ball lot, and then the ballot.

VULCAN, ALBERTA

THINKS HIGHLY OF CANADA

High tributes to the people, the institutions, the scenery and the hospitality of Canada are contained in the book, "A Joyous Adventure in the Dominion of Canada," which is an account of the visit to this country, in the early spring of 1927, of the choristers in Westminster Abbey and the gentlemen singers of St. Georges Chapel, Windsor. The author is Very Rev. Dr. A. V. Baillie, C.V.O., F.R.S.A., dean of Windsor. Dr. Baillie was particularly impressed with the forethought shown in the west in laying out of the universities. Dealing with his stay in Edmonton, he says: "We attended the opening of parliament, and it was interesting to see all the forms observed at home reproduced with dignity. Alberta has a Farmer government, and I was impressed by hearing, both then and afterwards, from men whose judgments were of real value, how high the standard is of ability and character which the farmers are introducing into public life. At a party given in the evening by the Lieutenant Governor, Dr. Egbert, I had an opportunity of having talks with a good many of these farming members, and I was struck by their enthusiasm, as well as that of their wives, about the life and work on the farms. The fact that the farming population of the Middle West is producing such a type seems to me to be of great importance to the future of Canada." The visits of old country people to Western Canada in 1927 and 1928 have been more frequent than in previous years, and there is no doubt Canada will be benefited by the wider knowledge thereby gained and circulated in the older lands.

EXPRESSES AMAZEMENT

The Literary Digest expresses amazement that Canada with a total population somewhat less than that of New York City, should have become during the last year, United States' best customer. This is regarded as a great indication of Canada's growing prosperity. "But great as the economic significance is the sentimental significance is greater. The relations between Canada and United States stand as the finest example of the ways in which neighboring states should discharge neighboring functions. The countries of Europe may well look in wonder. The relations are based upon sincere and general friendship between two peoples, with pretty much the same ambitions and social habits. But if for the last 200 years, suspicion and narrow nationalism had prevailed, the happy state now maintained might not be so easy."

Senator Bostock in an address at Kamloops, B.C., at the recent fair said that farmers should always advertise the products of their fields. Unfortunately they did not appreciate the value of advertising and were poorest of all advertisers.

INFERIORITY COMPLEX

Dr. Stanford Read, the psychologist gives this definition of inferiority complex: "It is a mental state which afflicts a man with nervousness in the face of opportunity and leads him to doubt his own abilities." An inferiority complex is usually traced to early influences and family relations. A child may have an over dominant parent, which does not allow the spirit of independence to grow. Some children are never allowed to do anything on their own initiative and coming in contact with freer children feel inferior. Sometimes too much is expected of a child. He is expected to head his class, when he cannot do it, and continued reproaches make him feel inferior. Often older brothers and sisters may dominate and overwhelm a younger one. However this complex of inferiority is so unpleasant that most people struggle to overcome it. And often to such good effect that they become persons of distinction. Nothing takes the joy out of life, like picking a wrong standard for comparison. The man with underdeveloped muscles, may have highly developed brain. All kinds are needed to make the world. And in order to banish an inferiority complex a man must first of all stop trying to be like everybody else in points in which he is weak. Let him ignore these and concentrate on his gifts. The world is full of those who have been spurred on his great deficiencies

ONE EVERY MINUTE

A letter has been written to the Editor Gold & Dross, Saturday Night from Dorchester, Massachusetts. It said: While hitch-hiking through Canada, I got a ride with a young man who appeared to have a very honest and conscientious character. He was a salesman for the Ore Chimney Mining Company, of which he spoke highly, and I immediately asked an opportunity to buy shares. Now I feel I may have been defrauded. I am but twenty-one. What may I do about it?—M.P., Dorchester, Mass.

The answer is: "There is nothing much you can do. The only way to find a buyer for the stock would be to buy a car and roam along some country highway, in hopes of finding another hitch-hiker that you offer a ride to—and unload stock on."

PICKING UP STRANGERS

Most car drivers are chummy about picking up strangers, especially on roads on which traffic is light. After the experience of Frank Rennie of Walkerton there will be more caution about giving strangers a lift over crowded highways. Mr. Rennie picked a man up at Niagara Falls and gave him a ride to St. Catharines. Mr. Rennie made the mistake of telling the strangers who he was and giving his address. At St. Catharines the stranger wired Mrs. Rennie over Mr. Rennie's name stating that he had had an accident and asked for \$300 which was remitted by wire. Four hours later Mr. Rennie learned of the swindle, but all efforts to apprehend the swindler failed.

Give me the person who can hold on when others let go; who pushes ahead when others turn back; who stiffens up when others retreat; who knows no such word as "can't" or "give up"; and I will show you a person who will win in the end, no matter what the opposition is, no matter what the obstacles are.—Marden.

RANDON REMARKS

(Col. Hugh Clark)

Politically, Babe Ruth is not on the fence anyway.

An honest confession is good for the soul but bad on the reputation.

The Babe has declared for Al Smith. That makes Hoover, Ruthless.

What can compare with the energizing tang of early fall in Canada?

Sin has only three letters, but unrepented, grows into a sentence of death.

The modern child must needs be a midget to hide behind his mother's skirts.

About the only thing a man can achieve without some inspiration is whiskers.

That Los Angeles surgeon who removed his own appendix had figured out the cost.

So live that you can get sick and be delicious without later worrying over what you said.

The person who has learned to bridge tongue, has learned to hitch his wagon to a Star.

The serious problem in connection with Arctic explorations in relieving the relief expeditions.

Paris is trying to stop public kissing—except, of course, in cases where both parties have whiskers.

Some one sagely observes that many people never make a nickel in their stocks nor a copper in the copper.

In Australia where one's neighbors are often 20 miles away, if a man bought a lawn mower, he would practically own it.

It's probably a happy marriage if, at the end of the first year, she asks him if he still loves her and he answers "Uh-huh."

It strikes us forcibly that most of the bigots nowadays preface their remarks with a glorious picture of their own tolerance.

"What the worker worries about now is that the dinner pail will be so full it will spill over and spoil the upholstery on the car."

Some promoters let their prospects in on the ground floor so that they themselves can do a little second story work unnoticed.

The Ontario liquor permit for the following year will be in booklet form. Probably so that if you want to turn over a new leaf—

You haven't any business to say that anybody is narrow minded just because he doesn't agree with your conception of the universe.

A lecturer stated that men imitated women. Nonsense! You don't see any men with their pants cut off above the knee, showing pink rosebuds on their Paris garters.

Al Smith has scrapped the Democratic platform and come out for protection for the American farmer and every one else. Makes it harder for our Canadian orators who know that protection is economically unsound.

The W.C.T.U. recommends preachers not to smoke in public, because it might be a bad example to young people. Preachers might retort by recommending the W.C.T.U. not to pass resolutions in public lest they get into the papers.

Lloyd George is heartened by the result of the Tavistock bye-election. Although the Liberal candidate was not elected, yet he cut down the last Conservative majority by about a thousand. Over there, as here, the party in power is at a disadvantage.

WONDERFUL VALUES

AL SMITH'S PHILOSOPHIES

Here are few Al Smith's philosophies which illustrate the sort of big man he is:

As between the few, and the many to be benefited, I cast my lot with the many.

What is the state? Green fields and rivers and lakes and mountains and cities? Why not all. It is the people.

I did not ask what his politics were I wanted an architect.

What do you think would happen to the New York Central if all the division superintendents were changed every year?

You can sit around the table and talk all the fantastic ideas about government that you like, but if the man on the street isn't with you, it doesn't go.

I was born down here on the lower end of this island and I come from the old fashioned kind of stock that never lets anybody put anything over him.

Liberty is an illusive thing. It isn't a thing that you can lock up in the safe, turn the key and go away and expect to find it there when you come back. Eternal vigilance alone is the price that you pay for that liberty.

To my mind the whole movement, (the Klan) is out of line with the spirit of our free institutions. The Catholics of the country can stand it, the Jews can stand it, our citizens born under foreign skies can stand it, the negro can stand it; but the United States of America cannot stand it.

I summarize my creed as an American Catholic. I believe in the worship of God according to the faith and practice of the Roman Catholic Church. I recognize no power in the institutions of my Church to interfere with the operation of the Constitution of the United States, or the enforcement of the law of the land. I believe in absolute freedom of conscience for all men and in equality for all churches.

TRAVELLING ON TIRES

Day and night traffic by motor busses is now becoming common. It is possible to travel by motor bus from Toronto to New York, Florida, California and Vancouver via Salt Lake City, says the Lethbridge Herald. Naturally, changes are made from one bus to another, but motor transportation companies route their passengers and sell them tickets to the farthest ends of the continent. Passengers are buying coach tickets from Toronto to Los Angeles and travelling day and night on rubber tires. They are allowed only hand baggage, and if they make the continuous trip their sleeping accommodation consists of a chair which can be tilted back. Or they can stop over at a hotel. But many of them are going right through. The inducement appears to be the fare—\$71.25 to Los Angeles, as compared with \$98.55 on the steam lines exclusive of sleeping car accommodation.

Young husband: I can't stand this suspense any longer. "Doctor: "Calm yourself, my dear sir. I've brought thousands of babies into the world and never lost a father yet."

RANDOM REMARKS

A chap asked us today if Gillette common is a safety first investment. A U.S. farmer is never sure of a demand for anything except his vote.

The only creatures that makes a noise like a whispering campaign are geese and snakes.

After all, straw votes may only show how the wind is blowing the straw. It may go against the grain.

The two main candidates for the Presidency of the United States are tolerant enough to accept the votes of the intolerant.

A democrat draws attention to the great saving in typesetting and ink when we start referring to the president as Al instead of Cal.

A man who has been in Chicago recently writes that he had "thought it far worse than it really is." We gather from this that it isn't.

When Baldwin committed himself to a policy of no protection he did not burn his bridges behind him. He burned them before he came to them.

Babe Ruth has come out with his reasons for supporting Al Smith. They are much the same as his reasons for batting a ball over the fence.

Britain is celebrating Guy Fawkes' Day by dismissing communists from employment in the Woolwich arsenal. Rather appropriate too, come to think of it.

With Ruth supporting Smith, and Lindbergh supporting Hoover, a lot of hero-worshippers in the United States do not know what to do. If we were to be influenced by either it would be Lindbergh. When he flies a plane across the Atlantic he goes with it. When Ruth flies a ball over a park fence he doesn't do a darn thing himself but run around the bases.

WHEAT YIELD REDUCED.

On the basis of returns received by the Department of Agriculture from threshers in all sections of the province, it is estimated that the Alberta wheat crop for 1928 will average approximately twenty bushels per acre. Although this figure is some seven bushels lower than the phenomenal returns in 1927, it is over two bushels above the ten year average for the wheat yield for the province. Further threshers' returns and reports of grain inspections indicate that the damage to the crop as a result of the frost is more serious than was anticipated when earlier estimates were made.

WANT OUR CATTLE

Canadian cattle exports to the United States in the past twelve months were greater than our exports prior to either the Fordney tariff or the Fordney-McCumber tariff. The shortage of live stock across the border is such that even a duty of one and one half cents a pound on small cattle and two cents a pound on large cattle does not stop the export of Canadian animals. But the cattle are exceptional; other agricultural products are still very effectively kept out of the American market by the high tariffs. Butter and eggs find the tariff wall hard to climb.

SCHOOL LAND SALE

A misunderstanding prevalent in respect to the sale of school lands in the southern part of the province has been made clear in a statement issued by the Calgary Dominion land office. The arrangement which has been made, it is stated, is that all unsold school lands which have been valued and listed, and which lie within the boundaries of the larger leaseholds, and where such leases are for a term of twenty-one years, will be withdrawn and will not be offered for sale on the dates and places advertised in such sale lists.

READ THIS GIRLS

Health service physicians in America conducted a study of the modern American girl and they say that physical breakdowns threaten them because of their intensive pace in the whirl of the present jazz age. They found an increase in tuberculosis. Numerous causes were cited leading to breakdowns. Foremost being hurried social life, strain from school or business, not taking sufficient time to eat, insufficient rest, and scanty clothing. These factors tend to wear out the body. Four things they said are held necessary to good health: eight hours of sleep at night, regular meals three times a day, six glasses of water daily and proper clothing.

MANY NEW SCHOOL DISTRICTS

Forty new school districts have been established in Alberta this year, according to the Department of Education, bringing the total of rural districts up to approximately 3,000. Over 5,000 school rooms are now being operated including city, town and rural schools. School expansion has been particularly noticeable in the northern part of the province, three new districts having been formed in the Battle River Prairie district north of Peace River. Next year is expected to see many further additions made to the number of schools in the province.

THE LETTERS "OUGH"

The wind was rough
And cold and blough
She kept her hands within her mough
It chilled her through
Her nose grew blough
And still the squall the faster flough.
And yet, although
There was nough snough
The weather was a cruel fough.
It made her cough
Pray do not scough,
She coughed until her hat blough ough.

IN A LIGHTER VEIN

Mistress—"Did you empty that pan of water under the refrigerator, Norah?" "Yes mum, and replaced it with fresh water."
Landlady—"What's wrong now?"
Boarder—"I just wanted to say that I think you get too much mileage out of this roller towel."
Wife (to returning husband at seaside resort): Oh darling, I'm so glad you've come. We heard that some idiot had fallen over the cliff, and I felt sure it was you.

HUDSON SUPER 6

A thrilling NEW DISCOVERY in performance and in value

Even those who owned and admired Hudson Super-Sixes of previous issue, have no conception of the superlative quality expressed both mechanically and in

body beauty of the great Hudsons of today.

A single ride will explain why this has been the most enthusiastically accepted Hudson ever built.

EDITORIAL

At a bankers' dinner
which one of our local
bankers was attending
one time a man read a
very puny poem which he
had written, and nothing
was done about it. But
just let a poet write a
bum cheque and watch
the banker get busy.

POST MORTEM

The day after Hallow-
een the average merchant
wishes there was no such
thing as soap.

MEN WILL BE BOYS

"There would be, no
objection to boys being
boys if they would only
be men when they grow
up" says a Vulcan woman.
If you need a cream
separator see us.

All that glitters is not
gold. If you don't believe
that take a look at the
seat of your old man's
pants.

FALL POEM

Said he: "I love your
eyes of blue,
Oh kindly be my queen.
That would have been
a lovely speech,
Except, her eyes were
green."

There are some really
beautiful homes in Vulcan.
Why not own one of
your own?

JACK PROBLEM

One small jack can lift
a car but it takes a lot of
jack to keep it up.

WORLD NEEDS

What the world needs
more than a good nickel
cigar is a potent cold cure.

FOR A FEW CENTS

A McCormick - Deering
Kerosene Engine will—
Separate 4,000 pounds of
milk.

WOULDN'T TRADE
We tried to trade one
of our customers out of
his old McCormick Deering
separator this week,
exchanging it for one of
the new ball bearing ones,
but he wouldn't trade. He
says, "I have had this one
for 5 years and no repairs.
It separates milk twice a
day from 10 cows as well
as it ever did. Why trade?"
If the old machines are
that good after years of
service, just imagine what
wonderful machines the
new improved ones are.

DEMONSTRATION?

Let us give you a demon-
stration of the McCormick - Deering Tractor
and convince you of the
wonderful work it will do.

GOVT. TO ASSIST GRAIN EXHIBITORS

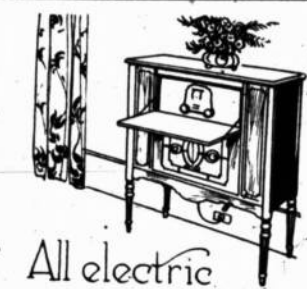

As in previous years, the Alberta
Department of Agriculture will this
year recognize awards won by Alber-
ta grain growers at the Chicago Inter-
national Hay and Grain Show. An
honorarium of \$150 will be paid by
the Department to each Alberta win-
ner of a grand championship and
\$100 for each first prize. In addition
to this the Department of Agriculture
will duplicate the prizes for grain
won by Alberta exhibitors at the
Toronto Royal Agricultural Show and
an honorarium of \$50 will be offered
to any Alberta exhibitor winning
a championship in wheat, oats
or barley at the Toronto Show.

ALBERTA

A Scotchman fell into his well. His wife heard his yells and ran to his rescue. "I'll ring the bell and bring the hired men in from the fields," she said. "What time is it?" asked the farmer as he struggled to keep his head above water. "About eleven o'clock," "Wait till lunch time—I'll try to hold on till then."

The city of Lethbridge must pay Larry Lester Cuthbertson \$4500 dam ages and costs and his father \$293 special damages and costs by a decision of the Supreme Court of Canada. Cuthbertson a young lad was run over by a street car operated by the city with the result the boy lost one of his legs.

J. D. MacLean former premier of British Columbia would be a distinct acquisition to the federal field of politics. A man born in Prince Edward Island, who has headed the govern ment of British Columbia, can hardly carry a sectional prejudice about with him.

NEWS BULLETIN

Issued by Publicity Commissioner,
Government of Alberta, Edmonton
October 20, 1928

American Farmers Interested

A great many farmers in the Western and Central United States are greatly interested in the opportunities for settlement in Alberta, according to D. A. McConnell, Provincial Publicity Commissioner, who returned recently from visiting a number of fairs in this territory. An exhibit depicting the agricultural and other natural products of Alberta was shown at eleven State and County fairs in Minnesota, Wisconsin, Iowa, Missouri and Kansas and wherever this was shown it attracted a great deal of interest. Canadian Government agents in this territory report that a great majority of the inquiries they are receiving from prospective emigrants to Canada are seeking information about Alberta.

Govt. to Assist Grain Exhibitors

As in previous years, the Alberta Department of Agriculture will this year recognize awards won by Alberta grain growers at the Chicago International Hay and Grain Show. An honorarium of \$150 will be paid by the Department to each Alberta winner of a grand championship and \$100 for each first prize. In addition to this the Department of Agriculture will duplicate the prizes for grain won by Alberta exhibitors at the Toronto Royal Agricultural Show and an honorarium of \$50 will be offered to any Alberta exhibitor winning a championship in wheat, oats or barley at the Toronto Show.

It is pointed out by the Field Corps Commissioner, W. J. Stephen, that the Department of Agriculture will again assist Alberta growers in sending their grain exhibits to the Toronto and Chicago shows. Entries close at Toronto on November 1st and at Chicago on November 10th and exhibits sent in before October 25th to the Provincial Seed Cleaning Plant, 9627 106th Avenue, Edmonton, will be shipped to their respective shows at government expense. Officials of the Department will also see that these exhibits are placed on reaching their destination and following the Chicago International will have them returned to their owners. Exhibits at the Toronto Royal will be disposed of by auction following the show. Each grain exhibit intended for Toronto should be accompanied by an entry fee of 75c.

Half a bushel is required for an exhibit in any of the grain or grass seed classes at Toronto while at Chicago one peck of grain or four quarts of clover or grass seed are required. Slightly larger amounts should be included when exhibits are sent in for forwarding by the Department of Agriculture.

BOYS' AND GIRLS' SWINE CLUBS

Members of Boys' and Girls' Swine Clubs from various sections of the province will meet at the Annual Swine Club Shows to be held shortly in Edmonton and Calgary. The Edmonton Show which will be held on October 30-31 will include 9 carloads of pigs sent in by the members of the following 13 clubs: Czar, Hardisty, Sedgewick, Treaty Hill, Willingdon, Chipman, Alliance, Vegreville, Vermillion, Mundare, Mannville and Innisfail. At Calgary on November 1, and 2, five carloads of pigs will be shown by the members of clubs at Raymond, Magrath, High River, Innisfail, Red Deer, Bentley, Lacombe, Rimbey and Wetaskiwin. As in previous years, the interest is expected to be very keen in the railway competitions not only for the trophies and medals which will be awarded to the winners but for the free trip to the Toronto Royal Show which will be given to the winning teams. Other features of the shows will be the competition sponsored by stockyards, commission firms and packing plants, the James Ramsey competition and the prizes awarded by Dominion and Provincial Departments of Agriculture for carload lots and judging demonstrations.

REQUIRED TO SEND RETURNS

Owners and operators of threshing machines and combine harvesters are being reminded at this time by the Department of Agriculture that they are required to furnish a return at the end of the threshing season showing the number of acres and number of bushels of the various kinds of grain threshed. Special forms for this purpose are supplied each thresherman at the time he secures the license to operate his machine for the season. It should be pointed out that whether the owner of the machine threshes only his own crop or does custom work in the neighborhood, he is required to furnish this information, which is invaluable to the Department in compiling agricultural statistics for the year.

READY FOR EASTERN SHOWS

As in previous years a number of steers fitted for the show ring by the Department of Animal Husbandry at the University of Alberta, will again compete for honors at the Toronto Royal Show and the Chicago International. Nineteen choice animals including representatives of the three principal beef breeds will be sent East this year where it is hoped they will equal the high mark set by Alberta entries in former years. Included in the lot are animals contributed to the University for this purpose by the following Alberta breeders: W. M. Parslow, Calgary; Wm. Sharp, Lacombe; J. L. Walters, Clive; P. Suddaby, Lavo; C. H. Richardson, Bowden; W. McNaught, Lysalta; W.D. MacDonald, Grainger and O. J. Granlin, Staveland, the remaining eleven head having been bred on the University Farm. Arrangements are being made for an advance showing of these cattle at the University barns at 2 o'clock, Wednesday afternoon, November 7, when all livestock breeders and others interested are invited to attend.

BACK TO ALBERTA TO STUDY

Among the students registered at the Olds School of Agriculture for this term is Duncan Marshall Jr., of Toronto. It is interesting that a son of the former minister of agriculture who established these schools of agriculture, should come twenty-five hundred miles from home to attend the school Duncan Marshall Jr. used to attend the Bennett public school and in those days he won the Lieut. Governor's gold medal at Calgary Exhibition for a heifer calf fed by a boy under 12 years old. Duncan intends later entering the agricultural college in the Alberta University and following up with post graduate work in agriculture.—Olds Gazette.

STRANGER WITHIN OUR GATES

"It is deplorable that the average Canadian is unable or unwilling to penetrate to the souls of the stranger within his gates. He is rarely accepted on an equal footing. He is seldom treated unkindly, but he is seldom understood and appreciated. The fact that he has come to Canada voluntarily, instead merely of having been born here, has no significance. Law and order is rigidly enforced in Europe, and if continentals are less law-abiding than our native population, it is probably because they are drafted from outscourings of great cities. If we stick to the country side of Central Europe, we are not going to create social problems or ourselves. Our chief grievance will be that on arrival these people will dress peculiarly and speak peculiarly. But we will get over that in a short time and so will they."—C. W. Peterson.

FIRE AT CARSELAND

Fire starting at 5:30 a.m., October 27, destroyed the post office building owned by W. L. Brown, and occupied in part by the Laurie drug store. Cole's general store was also destroyed. Only the excellent efforts of the townspeople saved other buildings. Assistant Chief Carr of the Calgary fire department arrived at 8:30 a.m. with an emergency truck. Estimated losses are: C. E. Cole, \$20,000; W. L. Brown, \$4,500; W. Laurie, \$2,000.

ITEMS OF INTEREST

An estimate is made of this year's Alberta wheat crop at 166,249,300 bushels.

Beet farmers around Taber are getting as high as 17 tons of beets to the acre.

For using previously used stamps on his letters a Trochu man was fined \$10 and costs for the offence.

No one should adopt the early-bird policy without first ascertaining whether he classes as a bird or a worm.—Arkansas Gazette.

Labor is doing what we must; leisure is doing what we like; rest is doing nothing while our bodies and minds are recovering from their fatigue.—G. B. Shaw.

Mrs. Henry Rounds, a former resident of Nanton, died October 10 at Botha, Alta., where she had been living with her son, Arthur. She is survived by two sons, Harry and Arthur.

W. A. Denoon is a small pox patient at Nanton and is in quarantine. This is the second case reported at Nanton. Depoon had small pox 20 years ago and it was thought he would be immune from the disease.

A Hebrew salesman at one of the department stores was approached by a lady dressed in mourning and evidently in much distress. She said her husband was dead and she wanted to buy a suit of clothes to bury him in, but did not know what kind to get. Not only did that salesman satisfy the poor lady in her predicament but he managed to sell her a suit of clothes with an extra pair of pants.

A writ for \$50,000 against the Canadian Pacific Railway has been filed in the Supreme Court of Canada on behalf of W. McKenney, of Claresholm, Alta., for alleged damages arising out of a train collision on September 7, 1927, near Dalemend Alta. Mr. McKenney, it is claimed, was a passenger on a train owned by the company and as a result of the collision it is asserted he suffered permanent disability.

Horace L. Seymour of Vancouver has been appointed Director of Town and Rural Planning in Alberta under the Town Planning Act passed at the last session of the Legislature. Mr. Seymour, who will take office at the first of the new year, comes to the position with excellent qualifications and experience. He is a graduate in civil engineering of Toronto University, and in addition to practicing his profession for some years has also lectured and written extensively on the subject of town planning.

A story is going round America to the effect that Mrs. Hoover, wife of the candidate for the Presidency, called on Mrs. Coolidge at the White House. Mrs. Coolidge said, "Would you like to see over the place? Mrs. Hoover said she would. When they came to the state bedroom. Mrs. Hoover laughingly remarked, "I wonder if I shall ever sleep in that bed." Whereupon the Irish maid, who was cleaning the room, and who is a strong supporter of Al. Smith, Mr. Hoover's opponent, blurted out, "Not unless you sleep with Al. Smith!"

Alberta leads among the prairie provinces in the value of manufactured products for the year 1926 according to the report just issued by the Dominion Bureau of Statistics. Alberta industries in 1926 numbered 749 with 10,229 employees, a capital value of \$72,488,286 and products valued at try. The party were on their way to accompanied by a party of seven un-lished industries increased by 15 and the capital by \$8,300,000 during the year. The products of Manitoba manufacturing plants in 1926 is placed at \$57,717,923 and those of Saskatchewan at \$47,108,097.

In an interview at Regina recently, Captain Paul A. Curtis, editor of Field and Stream, New York, declared his belief that the use of airplanes would prove a menace to the big game of Canada. He said he would like to suggest that legislation be introduced in the provinces prohibiting the use of planes in carrying hunters to their grounds and particularly in "spotting" game by flying low. He had been ridiculed, he said, when 15 years ago he said the use of autos would result in the practical elimination of small game in the United States. Time, he declared, had proved him to be right. Captain Curtis also claimed a very restricted season better than an entirely closed season might extend over a period of years, had proved the better in preserving game birds.

The Royal Society for the Protection of Birds in Britain, has evolved one scheme for safeguarding migrating birds on their reaching England's shore. Around the beacon lights along the coast, myriads of birds had formerly been found flying about the lights, until they would fall exhausted in the sea and be lost. The Royal Society gained permission from the government to erect lattice-work-perches of wood round the dome of the lighthouses, so that the birds, attracted by the lights might find a resting place—this without obstructing the glare of the lighthouse. The experiment has been so successful that a great many lighthouses are outfitted in this way, and as a result many thousands of birds are saved annually. The hope is that all countries having seacoasts in the path of migrating birds will follow this effort at conservation of wild life.

The Greatest Popularity Contest

THE public has judged motor-car values. It has staged the greatest of popularity contests.

Never has Chevrolet enjoyed such whole-hearted public acceptance—never before has any low-priced car offered such a striking combination of great beauty, thrilling performance and amazing economy!

To sit behind the wheel is sheer delight.

Come in and see the world's most popular car. Experience for yourself the wonder of its performance. Learn for yourself why it is the greatest success of the year.

The G.M.A.C. General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet out of income.

VULCAN

The Greatest Radio Value Ever Offered

Westinghouse

Westinghouse

6Tube CONSOLE
for Only \$167⁰⁰ Uses Ux201-B Radiotrons

When you buy a Westinghouse Battery Console Radio you own a beautiful instrument that embodies the latest improvements at a price that represents more radio value than has ever been offered before.

It gives you:

Full 6-tube power, using the new Westinghouse UX-201-B and UX-121-B Westinghouse Radiotrons.

Selectivity, finely balanced, giving equal performance in the upper and lower wave bands.

True-to-life tone quality—both high and low notes reproduced with equal fidelity.

Economy of operation. The new UX-201-B Radiotron uses only half as

much filament current as the former standard UX-201-A, thereby reducing the cost and frequency of "A" battery recharging.

Distant stations brought in with ease and clarity.

New improved cone speaker, developed by Westinghouse, and many other features which we will be glad to show.

Single dial control.

ENSIGN NEWS

Mr. A. Haga who has given up his farm has returned to his home in N. Dakota.

The Ladies Aid will meet at the home of Miss Bella Williams to make arrangements for the chicken supper and concert which is to be held at the Ensign school house on November 9.

Mrs. J. B. Fournier who has been visiting with her son, Mr. J. Fournier of Pincher Creek is visiting at the home of her daughter, Mrs. P. L. Bourque.

Mr. A. Southgate, Mrs. H. Hanson and Mr. A. Markert have returned to the Technical School at Calgary, to take up their courses in motor and tractor work.

Ensign Church services held every Sunday afternoon at 3 p.m. Preaching by the Rev. J. J. Farquhar, also Sunday school conducted at 2.30 p.m. by Mrs. A. Smith. You are all invited to attend these services.

A dance was held in the Ensign school house Friday evening, October 26th by the local boys. There was a good attendance, the music being furnished by the Miss McPhee orchestra from Frankburg. The proceeds were for the support of the skating rink.

ARROWWOOD NEWS

Word has been received in Arrowwood that the C.P.R. townsite department has sold all the remaining business lots to one purchaser. It has not been learned yet to what use the present owner will make of them. It is rumored that another general store will be added to the town.

A mass meeting was held recently with most of the businessmen of Arrowwood together with several farmers in the district. The purpose of the meeting was to arrange for petitions to be circulated asking the Government Telephone officials to install a telephone exchange in Arrowwood with 24 hours continuous service. The meeting was called to order by Mack W. Lyle who was elected chairman of the meeting, and Ray Bishop was elected as secretary. Several talks were given by various men present. It was pointed out that Arrowwood was the largest point in Alberta without a continuous 24 hour service. It was estimated that there would be one hundred and sixty phones in use when the telephone exchange is in operation in Arrowwood. There are about thirty signers asking for phones in the town itself from people who have no phone at present. Mr. J. C. Buckley, M.L.A., for this riding has promised that the matter would receive careful consideration by the telephone officials at Edmonton.

KIRKCALDY NEWS

Mr. and Mrs. J. M. Roebuck motored to Lethbridge on Saturday.

Miss McFall spent the week end with Miss Mavis Ruark at Ensign.

Mr. and Mrs. Gossett from Reid Hill spent Sunday at the home of Mrs. Boose.

Mr. Robert Robbie motored to Calgary on Sunday where he spent the week end.

Mr. John Carry and family from Okotoks moved to Kirkcaldy on Wednesday.

Mr. and Mrs. Lee and family of Nanton, spent the week end with his sister Mrs. R. Clements.

The Peppy Pals Girls' Club meets at the home of Margaret Roebuck Saturday, November 10th, 2.30 p.m.

Mr. and Mrs. Fred Hagerman of Calgary, who have been visiting with their son and daughter left for their home on Sunday.

Mr. and Mrs. Percy Myers of Reid Hill and Mr. and Mrs. A. J. Maisey spent Sunday with Mr. and Mrs. Joe Myers.

Two of our local boys, Keith Tuttle and Eldon Peters are leaving for Calgary where they are taking a course in the Technical school.

The Kirkcaldy W. L. met at the home of Mrs. Clements on Thursday, October 25th for their social meeting. After a short business meeting, an interesting contest was given, Mrs. Boose winning the prize. Then several members gave special readings on flowers. Mrs. Myers gave a good talk on making Christmas cakes, and Mrs. Maisey a talk on Christmas gifts and giving. A delightful lunch was served by the hostess and the afternoon voted a great success. The next meeting will be held on Thursday November 8th at the home of Mrs. W. Todd.

MILO NEWS

Mr. J. Winkler has purchased the Harry Baker farm. This was formerly rented by Mrs. Stephenson.

Messrs. Lucis, Ivers, John Winkler, Steve Williams, Oscar Samson, Will Mallet and Gordon Ivers spent a few days this week in Coutts.

"Wings" was presented at the Milo picture house last week drawing big houses each night. This theatre is open four nights a week.

Mr. and Mrs. St. Peter motored to Lethbridge this week and while there saw the musical comedy "Rose Marie."

Mr. and Mrs. H. Deitz leave shortly for California to spend the winter. Mr. and Mrs. Deitz, Mrs. Lecuyer, Mrs. Douglass and Miss L. Watt spent Thursday in High River.

On Saturday, October 27 the Rocky Butte's school held a turkey dinner to celebrate winning the school fair shield for the third year in succession. All the former teachers of R. B. school were present, Mrs. Aiston, V. J. Bertrand, Miss Ruth Rolston, Mrs. David McDonald (High River) and Miss Ruth Ferngren the present teacher. A sumptuous repast was enjoyed and afterwards cards and games were the order of the evening.

ITEMS OF INTEREST

The Algoma Steel Company turned in one year a deficit of \$141,941 into a surplus of around \$300,000. This looks like a healthy revival.

Citizens of Staveland endorsed the covered rink project by their votes on October 27 and soon the construction of the rink will be under way.

British shipowners plan to abolish starboard and port, and to substitute left and right. This is in conservative Britain. There is hope for the metric system yet.

Life insurance sales in the United States were five per cent. less than in September, 1927. In Canada they were fifteen per cent. more. Three or four years ago many life insurance salesmen in Canada thought sales had reached the saturation point.

One of the big arguments for the wheat pool is that it spreads the farmer's income over a whole year and prevents him from spending all his money at one season of the year. Yet last year the pool recorded 45,621 assignments, and seventy per cent. of them were made to banks. Apparently many of the pool members spend their money before they get it.—Financial Post.

Saskatchewan is made safer for insectivorous and other useful birds by the sudden depletion in the crow population this summer by something approaching 250,000 as a result of the provincial crow competition. More than 4,000 individuals entered the contest, in which \$2,500 was offered in 1,500 cash prizes ranging from \$100 to one dollar.

To travel 1,500 miles with a demented Indian isn't the sort of thing that everybody would like, but to constable R. H. Walker of Arctic Red River, mounted police post on the Mackenzie river, it's "all in the day's work," and the constable duly landed his prisoner at the barracks at Edmonton, after several weeks of arduous travel.

The fate of Lieut. Commander McDonald who tried to fly the Atlantic in a small plane has started a proposal to place some check on such enterprises. It is more easily suggested than done. McDonald's chances were slim indeed, but Lindbergh's chances were accounted so slim that they called him the "flying fool." A commission or tribunal clothed with authority to permit or forbid daring enterprises might conceivably have prevented the Graf Zeppelin from coming to America with a list of passengers.

Commencing November 1, the season will open for the hunting of deer, moose, caribou, fox, mink, marten, fisher marten, otter, beaver and muskrat in Alberta. On October 31, the hunting season will close for mountain sheep, mountain goats. The season will continue until December 1st for deer, moose, caribou, ducks, geese, swans, cranes and Hungarian partridges. At the end of November the season will close for Hungarian partridge. Game which can be hunted the year around include: crows, goshawks, eagles, duck hawks, pigeon hawks, Cooper's hawks, hawk owls, blackbirds, grackles, sparrows, loons, cormorants, pelicans and magpies.

ITEMS OF INTEREST

The Family Herald and Weekly Star, with its wonderful improvements, is now regarded as the great Agricultural Paper of Canada and the Family Circle's best magazine.

Dr. Langsner, the Viennese criminologist, is in Toronto and claims he will disclose the entire details of the Ambrose Small murder case before November 11.

W. M. MacDonald, former manager of the Manufacturers Finance Corporation which is now in bankruptcy is charged with obtaining \$500,000 from the Trust and Guarantee Co.

A reckless driver in the Old Country was hailed before the bench charged with driving to the common danger. Upon being fined he asked that sentence be deferred until his dole was due.

The Ponoka asylum probe under way with Drs. Hineck and Farrar of the East in charge. They will first investigate Ponoka and later Red Deer and Oliver institutions and we are informed it will be thorough and complete.

Recent contracts for road building awarded by the Department of Public Works include that to H. G. McDonald for the gravelling on the Lethbridge-Macleod highway of 25 miles, and to the Western Construction Company for completing the grading of the Crow's Nest road to the British Columbia boundary. Work on the gravelling will begin at once and a start will be made very shortly with the Crow's Nest contract, the intention being to continue the work through the winter.

The last issue of the Innisfail Province is a very creditable one and does credit to the publisher, Ben Huckle and the progressive merchants of that town who are believers in Printer's Ink. It was an anniversary number and it told of the progress made by the town and community since its inception. The new home of the Province is a commodious one and is equipped with a modern and up-to-date plant. To keep pace with Ben Huckle's newspaper the town of Innisfail must needs sit up and take notice.

George Starke of Montreal was some time ago convicted of a crime and sentenced to jail with lashes. He has served part of the term and taken some of the lashes and now, through the confession of another man, Starke is found to be innocent of the crime. Canada prides itself on its quick and sure penalizing of crooks and here is an opportunity to show that if a mistake is made this country is just as quick and ready to compensate an innocent man who has suffered—and no matter how much is done for him it will not be adequate.—Kincardine Reporter

Notice To Threshermen

Owners or operators of threshing machines and combined harvesters are required to send to the Department of Agriculture at the end of the threshing season a return showing the number of acres and number of bushels threshed. This applies whether the machine has been used for custom work or only for the owner's crop. Special forms for these returns may be secured from the

Publicity Branch,
Department of Agriculture,
Edmonton.
